June 24, 2016

The Honorable Mark W. Myers, Mayor of the City of Greenwood
Members of the City of Greenwood Common Council
Residents of the City of Greenwood:

The comprehensive annual financial report (CAFR) of the **City of Greenwood, Indiana** (the “City”) for the year ended **December 31, 2015** is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rest with the management of the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and enterprises of the City. All disclosures necessary to enable the reader to gain an understanding of the government’s financial activities are included.

Accounting Principles Generally Accepted in the United States of America (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany basic financial statements in the form of the Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City’s MD&A can be found immediately following the independent auditor’s report.

The CAFR is presented in three sections:

- **Introductory Section** – includes this letter of transmittal, Certificate of Achievement for Excellence in Financial Reporting, the City’s organizational chart, and a list of principal City officials.
- **Financial Section** – includes the independent auditor’s report, the City managements’ discussion and analysis, the basic financial statements, required supplementary information, and the combining and individual fund statements and schedules,. The Notes to the Financial Statements, in the basic financial statements, are necessary for an understanding of the information included in the statements. The notes include a Summary of Significant Accounting Policies and other necessary disclosure of matters relation to the financial position of the City
- **Statistical Section** - includes financial trend, revenue capacity, and debt capacity data and nonfinancial information useful in assessing a government’s financial condition including demographic and economic information and operating information.

The City is required to undergo an annual single audit in conformity with the provisions of the U.S. Office of Management and Budget Circular A-133, Audits of State, Local Governments and Non-Profit Organizations, the provisions of Indiana Code section 5-11-1-9 and the requirements of the State Board of Accounts of the State of Indiana. Information related to the single audit, including the schedule of federal financial assistance, findings and recommendations, and the auditors’ reports on the internal controls and compliance with applicable laws and regulations, is provided separately.

The following section of this transmittal letter begins with a general overview of the City and its environs. Also summarized are the key financial, budgetary and property tax controls with which the City is required to comply. The remainder of this letter includes a discussion of the prior year's activities, the City's objectives for the next two years, and other key issues the City is facing and the impact those issues may have on future budgets.

Profile of the Government and the City

Greenwood is located in Johnson County, the fastest-growing county in the state of Indiana between 2010 and 2012.

Greenwood has approximately 54,000 residents and roughly 35,000 individuals reside just west of the Greenwood city limits in unincorporated Center Grove. In all, 236,000 people live within seven miles of Greenwood's City Center. Greenwood is just eleven miles south of downtown Indianapolis and is a contiguous suburb of the state's capital. Five interchanges connect the Greenwood area with Interstate 65, a major United States commerce corridor that connects seaports in the Gulf of Mexico (Mobile, Ala.) with Nashville, Louisville, Indianapolis and Chicago. Additionally, US Highway 31 and Indiana State Roads 135 and 37 are major north-south highways connecting Greenwood to Indianapolis to the north, and Bloomington (Ind.), Columbus (Ind.), Louisville (Ky.) and points in between to the south. These highways serve as major retail, service, office, agricultural, and residential corridors that move thousands of drivers daily. Since 2012, Greenwood has been classified as a "City of Second Class" under Indiana statutes, defined as cities with a population between 35,000 and 250,000 residents. A mayor is chief executive of the City and the oversight body for the Civil City (governmental operations) is the Common Council of the City of Greenwood. The Council is composed of nine elected Council members who serve four-year terms, six of whom represent geographic districts and three of whom are elected at-large.

The City provides a diverse range of services to its citizens and neighbors. These services include: police protection, firefighting, the construction and maintenance of roads and sidewalks, stewardship of public parks and trails, and the general administration of over twenty-five square miles of incorporated land. The City also has oversight over the Greenwood Wastewater Utility, the Greenwood Waste Management Utility, the Greenwood Stormwater Utility, the Greenwood Municipal Airport, and the City of Greenwood Redevelopment Commission. Additionally, the Greenwood City Court and Probation Department also serve as subdivisions of the municipality.

Economic Environment

Greenwood benefits from its advantageous geographic location both in terms of commerce and quality of life. Downtown Indianapolis is only fifteen minutes away and residents can easily commute to downtown businesses for employment. For entertainment, Greenwood residents can be at Lucas Oil Stadium or Bankers Life Fieldhouse quicker than many residents of Indianapolis proper. If Greenwood residents decide to venture south, Indiana University Bloomington and Brown County State Park are reachable in less than forty-five minutes.

Greenwood is proud to be home to the U.S. headquarters of Endress+Hauser, a privately held Swiss Corporation with over 8,500 employees and locations in 42 countries. Greenwood is also home to Indiana American Water, a publicly-traded utility that serves about 1.2 million Hoosiers in 126 communities. These firms combined with businesses such as Nachi America, Nestle Waters North America, Ulta Beauty, and Ortho Indy have created a diverse employment base within the City limits. The City is also home to the headquarters of several privately owned innovative firms. Tilson HR, located on the City's east side, provides Human Resources and Business Optimization solutions to companies across the United States. National Trade Supply, with its headquarters on the eastside of the City, has provided air and water filters to over three million customers since 2002. While the City is still largely tethered to the Indianapolis job market, strong and growing global business like Endress+Hauser and innovative local firms like National Trade Supply have helped Greenwood to create a dynamic local business community.

Greenwood is also a highly desired community for families and professionals looking for homes in the Central Indiana Region. In 2013, Greenwood was ranked 5th in a list of the top 10 most affordable suburbs in the U.S. by real estate blog Movoto.com. In 2014, Johnson County was one of eight counties across the country profiled by CNN Money in their “Where the Middle Class Thrives” series.

In 2015, the average household income for Greenwood residents was \$52,621. (in 2014 dollars) The unemployment rate for the city stood at 3.6% in 2015 compared to 4.6% in the State of Indiana (U.S. Bureau of Labor Statistics & Census data). Greenwood’s stable employment base and steadily growing population continues to attract retail and commercial development within the City.

The City is home to the Greenwood Park Mall owned by Simon Property Group. The mall is the largest tax payer in the City and is home to over 150 stores and restaurants. Beyond the Greenwood Park Mall the City is home to several “anchor” stores including: Super Target, Sam’s Club, Kroger, Gander Mountain, Rural King, Menards, Home Depot, Walmart, and Meijer which combined make the City a regional shopping destination.

Many thriving local retail businesses have also emerged within the City limits. The City is home to five major motor vehicle dealerships, three microbreweries, three local butcher shops, and two art lesson studios that happen to serve wine, and one for-benefit coffee house known for its nitro stout coffee.

Relevant Financial Information

Management of the City is responsible for establishing and maintaining an internal financial control structure. The structure is designed to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is also designed to provide reasonable assurances that these following two objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. We believe that the City’s internal controls reasonably safeguard assets, assure that financial transactions are properly recorded and reported, and ensure compliance with applicable federal and state laws and regulations. The statement of net position for the City of Greenwood clearly demonstrates the strength of its financial condition, with the operating statements displaying annual positive improvement since becoming a City of Second Class.

Budgetary Controls

The City of Greenwood complies with the appropriation process for expenditure control as required by Indiana statute. The City has also approved a policy of informally adopting an annual budget for the activities of its wastewater, waste management, and storm-water operations. While this self-imposed budget is not legally binding, it further demonstrates the signature of the City with respect to fiscal restraint, diligence, and review.

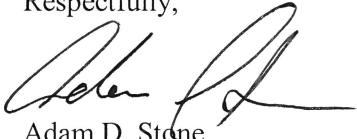

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) of the United States and Canada awarded the Certificate of Achievement for Excellence in Financial Reporting to the City of Greenwood for its CAFR for the fiscal year ended December 31, 2014. This was the second year the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe our current report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This report is prepared with the professional and dedicated services of the Greenwood Finance Department staff. Support from the entire staff is required to produce the report in a timely manner. I want to specifically express my appreciation to Kathie Fritz, Peggy Sappenfield, Kevin Steinmetz, Dawn Cox, and Noelle Crosby for their individual contributions to this annual report. Additionally, I would like to thank all of the city officials, council members and department heads for their dedication and cooperation in the preparation of the report. We believe this report will continue to provide useful and valuable financial information to the entire city, its citizens, visitors, and prospective investors in present and future.

Respectfully,

A handwritten signature in black ink, appearing to read 'Adam D. Stone', with a stylized flourish at the end.

INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF THE CITY OF GREENWOOD, JOHNSON COUNTY, INDIANA

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Greenwood (City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 9 to the financial statements, the City adopted new accounting guidance, GASB Statement 68 *Accounting and Financial Reporting for Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedule, Schedule of Net Pension Liability and Related Ratios, Schedule of Changes in Net Pension Liability, Schedule of Actuarially Determined Contributions, Schedule of City's Proportionate Share of the Net Pension Liability, and Schedule of City Contributions, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying Introductory Section, Combining Balance Sheet, Combining Statement of Revenue, Expenditures, and Changes in Fund Balances, other Budgetary Comparison Schedules, Combining Statement of Net Position, Combining Statement of Revenue, Expenses, and Changes in Fund Net Position, Combining Statement of Cash Flows, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Balance Sheet, Combining Statement of Revenue, Expenditures, and Changes in Fund Balances, other Budgetary Comparison Schedules, Combining Statement of Net Position, Combining Statement of Revenue, Expenses, and Changes in Fund Net Position, and Combining Statement of Cash Flows, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Combining Balance Sheet, Combining Statement of Revenue, Expenditures, and Changes in Fund Balances, other Budgetary Comparison Schedules, Combining Statement of Net Position, Combining Statement of Revenue, Expenses, and Changes in Fund Net Position, and Combining Statement of Cash Flows are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Paul D. Joyce, CPA
State Examiner

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

The Management of the City of Greenwood, Indiana ("City") provides herewith this Management Discussion & Analysis ("MD&A") of the financial activities and the general condition of the City for the fiscal year ("FY") ended December 31, 2015.

During fiscal year 2015, the City implemented the Governmental Accounting Standards Board pronouncement No. 68 (GASB 68). For the purposes of this Management Discussion and Analysis, the cumulative effect of this item was shown against 2015 beginning net position/fund balance. Fiscal year 2014 balances are presented as previously reported.

Readers of the information contained within this MD&A, and any opinions and statements derived therein, should be considered as part of the greater whole of the financial statement, notes to the financial statements, supplemental information and letter of transmittal, as contained within this Comprehensive Annual Financial Report ("CAFR").

The City provides a full range of governmental services to its citizens and neighbors. Services include: general government administration, public safety, street and sidewalk construction and maintenance, and stewardship of parks and recreation properties. The City also provides Stormwater and Waste Management services to residents within the City's boundaries. Additionally, as owner of Greenwood Sewage Works, the City provides wastewater services to residents and large portions of unincorporated Johnson County. City operations also include the Greenwood Municipal Airport, the Greenwood City Court, the Greenwood Probation Department, and the Greenwood Redevelopment Commission.

Financial Highlights

- Government wide net position was \$351,598,706 as of December 31, 2015, an increase of \$4,597,779 or 1.33% over FY 2014.
- Governmental Activity net position was \$181,912,218 as of December 31, 2015.
- Governmental Activity net position increased \$1,033,106, or 0.57% in FY 2015.
- Business-type activity net position was \$169,686,488 as of December 31, 2015.
- Business-type activity net position increased \$3,564,673, or 2.15% in FY 2015.
- Government wide Assets as of December 31, 2015 were \$444,232,276 an increase of \$9,939,155 or 2.29% as compared to December 31, 2014.
- Government wide deferred outflows were \$4,843,817 as of December 31, 2015 as a result of the implementation of GASB 68.
- Government wide Liabilities were \$93,504,340 as of December 31, 2015 compared to \$87,292,224 as of December 31, 2014.
- Government wide deferred inflows were \$3,973,047 as of December 31, 2015 as a result of the implementation of GASB 68.
- Government wide Revenue totaled \$62,592,805 in FY 2015, an increase of \$1,830,714 or 3.00% as compared to FY 2014.
- Government wide Expenses totaled \$48,491,717 in FY 2015 compared to \$53,426,499 in FY 2014.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Explanatory commentary concerning the changes in assets, liabilities, revenues and expenditures can be found in later sections of this MD&A.

Overview of the Financial Statements

This discussion and analysis is an introduction to the City's basic financial statements. The City of Greenwood's financial statements are comprised of three components: 1) government wide statements 2) fund financial statements and 3) notes to the financial statements. This report also includes other information in addition to the basic financial statements themselves.

Government wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances using accrual based accounting, a method of accounting utilized by private sector companies.

- **Statement of net position**

This statement reports all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the City of Greenwood as of December 31, 2015. The net difference between total assets and deferred outflows less total liabilities and deferred inflows is reported as "net position," and can generally be thought of as the net worth of the City and its various subdivisions. Increases in net position generally indicate an improvement in financial position whereas decreases in net position may indicate a deterioration of financial position.

- **Statement of activities**

This statement serves in place of the traditional income statement. It provides aggregated reporting of the results of all activities of the City for the year ended December 31, 2015. Changes in net position are recorded in the period in which the underlying event takes place, which may differ significantly from the period in which cash is received or disbursed. The statement of activities displays the expenses of the City's various programs net of the related revenues, as well as a separate presentation of revenue available for general purposes including property taxes, fees for services, and other miscellaneous revenue sources.

The government wide financial statements distinguish between functions of the City that are primarily supported by taxes and intergovernmental revenue (hereinafter referred to as "governmental activities") and other functions and services of the government that are intended to recover all or the majority of their costs through user fees and charges (hereinafter referred to as "business type activities"). The major government activities of the City include: general administration, public safety, road construction and maintenance, parks and recreation, and community development services consisting of planning, zoning, and other engineering functions. The business type activities of the City include: Sanitary Sewer Utility, Waste Management Utility, Stormwater Utility and the Greenwood Municipal Airport.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been earmarked for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be separated into three classifications: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for the functions reported as governmental activities in the government wide financial statements. However, unlike government wide financial statements, governmental fund statements focus on discrete inflows and outflows of liquid resources, as well as balances of liquid resources available at the end of each reporting period. This information is useful in evaluation of the government's immediate financing requirements. Governmental funds use a modified accrual accounting methodology. Major Governmental funds are comprised of the General, Eastside TIF, Capital Projects and Debt Service funds.

Proprietary Funds

Enterprise Funds are utilized to report the same functions as business type activities in the government wide financial statements. The City maintains four (4) enterprise funds. Information is presented separately in the proprietary statement of net position and the proprietary revenues, expenses and changes in fund net position for the Wastewater Utility, Stormwater Utility, Solid Waste, and the Aviation Fund. The Wastewater Utility, the Stormwater Utility and the Solid Waste funds are considered major enterprise funds of the City.

Fiduciary Funds

Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City reports one Agency Fund which accounts for the payroll and insurance withholdings held by the City as an agent for the federal and state governments, and various employee insurance deductions and one Pension Trust Fund, which accounts for activities related to the 1925 Police Pension Plan.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential in order to have full comprehension of the data and financial statements included in this report. The notes to the basic financial statements can be found immediately following the Fund Financial Statements and prior to the Required Supplementary Information in this report.

Other information

In addition to the basic financial statements and accompanying notes and disclosures, this CAFR report presents supplementary information. The combining statements referred to earlier in connection with non-

DECEMBER 31, 2015

major governmental, enterprise, internal service, and fiduciary funds are presented immediately after the basic financial statements within the financial statement section of the CAFR report.

Government-wide financial statements

The following analysis focuses on the statement of net position and the statement of changes in net position for both the City's government and business type activities

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's overall financial health. At the close of 2015, assets exceeded liabilities by \$351,598,706 for the City as a whole. The largest portion of the City's net position, 82%, reflects long term investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure) less any related outstanding debt utilized to acquire or build said assets. The City places these capital assets into service in order to provide benefits and governmental services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, as the capital assets themselves cannot be liquidated to fund these liabilities.

The following table reflects the condensed Statement of Net Position:

	Governmental Activities		Business-type Activities		Government wide Activities	
	2015	2014	2015	2014	2015	2014
Current and Other Assets	\$ 70,750,198	\$ 76,367,701	\$ 24,539,896	\$ 23,214,189	\$ 95,290,094	\$ 99,581,890

Long-term liabilities	66,124,330	55,240,304	23,398,814	24,813,750	89,523,144	80,054,054
Total Liabilities	68,340,755	61,218,115	25,163,585	26,074,109	93,504,340	87,292,224
Deferred Inflows	3,973,047	-	-	-	3,973,047	-
Net Position						
Invested in capital assets	135,143,824	130,275,115	153,808,946	155,680,656	288,952,770	285,955,771
Restricted	28,573,725	27,525,387	4,734,572	9,026,994	33,308,297	36,552,381
Unrestricted	18,194,669	23,078,610	11,142,970	1,414,165	29,337,639	24,492,775
Total Net Position	\$ 181,912,218	\$ 180,879,112	\$ 169,686,488	\$ 166,121,815	\$ 351,598,706	\$ 347,000,927

A portion of the City's net position, approximately 10% in FY 2015, represents resources that are subject to external restrictions and are therefore not available for general activities. The remaining portion of the City's net position, approximately 8% in FY 2015, is unrestricted and may be used to meet ongoing obligations to citizens and creditors as management determines appropriate.

At the close of fiscal year 2015, the City is able to report a positive net position for governmental activities, business-type activities, and government-wide activities. In 2015, the government-wide net position increased by \$4,597,779 or 1.31%.

Governmental Activities

Governmental Activities increased the City's net position by \$1,033,106 in 2015. General Property and Other Tax revenue received represented 75% of total Governmental revenues. Charges for services totaled \$1,811,200 in 2015, representing 4.6% of total Governmental revenues. Expenses totaled \$29,734,419 for Governmental activities.

Key factors leading to the increase are listed below:

- **Eastside Tax Increment Finance:** In 2015, the Greenwood Redevelopment Commission received \$6,571,484 in Property Taxes resulting from Captured Assessed Value within its Eastside Allocation Area.
- **CAGIT Certified Shares Tax Revenue:** In 2015, the City received \$5,633,896 in CAGIT.
- **Expenditures:** In 2015, the City's governmental activity expenditures decreased by \$2,661,713 as a result of less capital expenditures in the current year.

The following chart displays the revenue composition for Governmental Activities Funds.

Business-type Activities

Business-type activities increased the City's net position \$3,564,673 in 2015 compared to an increase of \$4,483,446 for FY 2014. A key factor leading to the increase is listed below:

- **Stormwater Pleasant Creek Re-Stabilization:** Immediately after completion of the Pleasant Creek Stabilization Project the retaining wall suffered significant failure and had to be replaced. Due to the extent of the failure over \$1,607,418 in additional expenses were incurred in 2015 to; 1.) Provide short-term stabilization, 2.) Re-design and re-construct, and 3.) Legal fees.

MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Financial Analysis of Government Fund's

Governmental Funds – The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resource. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported total fund balances of \$62,724,721, a decrease of 3.38% from FY 2014. Approximately 24.93% or \$15,640,325 constitutes the General Fund balance. As of December 31, 2015, the General Fund's non-spendable fund balance includes \$139,768 for inventories and \$240,424 in prepaids, deposits and other transactions. The restricted fund balance of \$346,996 includes \$346,202 in police pension, \$432 in police seizure and forfeiture funds and \$362 in taxes collected for a legal drain named Tracy Ditch. The committed fund balance of \$1,114,054 includes amounts for accounts payable and carryovers between fiscal periods. As of December 31, 2015, the General Fund had an unassigned fund balance of 13,799,083, an increase of \$1,502,035 or 12.21%.

The non-major governmental fund balance of \$10,535,622 is 16.80% of total governmental fund balance and includes a non-spendable fund balance of \$99,629, a restricted balance of \$7,829,027, a committed fund balance of \$2,584,143, and an assigned fund balance of \$22,823. The Debt Service Fund balance of \$5,110,892 is 8.15% of total governmental fund balance and includes a restricted fund balance of \$4,614,298. The Capital Projects Fund balance of \$13,243,781 or 21.11% of total governmental fund balance and includes a restricted balance of \$10,065,941, a committed fund balance of \$2,343,780 and unassigned fund balance of \$834,060. Eastside TIF fund balance of \$18,194,101 or 29.01% of total governmental fund balance includes a restricted fund balance of \$16,426,368.

The following table reflects the fund balance for Governmental Funds:

	2015		2014	
General	\$	15,640,325 24.9%	\$	13,326,718 20.5%
Debt Service		5,110,892 8.1%		2,830,800 4.4%
Capital Projects		13,243,781 21.1%		21,091,824 32.5%
Eastside TIF		18,194,101 29.0%		16,987,772 26.2%
Non-Major Governmental Funds		10,535,622 16.8%		10,680,831 16.5%
	\$	<u>62,724,721 100.0%</u>	\$	<u>64,917,945 100.0%</u>

As shown in the below charts for governmental funds fiscal year 2015, property taxes and other local taxes accounted for 75% of total revenues and served as the primary sources of revenue while capital outlays, personal services and other services and charges were the largest expenditures by object classification.

The General Fund is the primary operating fund of the City. At the end of the current fiscal year, the fund balance of the General Fund stood at \$15,640,325. To measure the General Fund's liquidity, it may be useful to compare the unassigned fund balance to the total fund expenditures. The total unassigned fund balance of \$13,799,083 represents 75.34% of the total General Fund expenditures in FY 2015. Fund balance in the General Fund increased by \$2,313,607, or 17.36% over FY 2014.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Significant factors influencing this change in the General Fund were the Wastewater Utility Return on Investment transfer, the City exceeded its revenue budget by \$1,097,541 during the year, and used 93% of its authorized budget.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Financial Analysis of the Proprietary Funds

The City's proprietary funds provide the same information found in the government-wide financial statements, but in more detail.

Unrestricted net position for the City's major Proprietary Funds, the Wastewater Utility and Stormwater Utility Fund, and Solid Waste funds were \$5,621,894, \$2,673,962, and \$2,398,603, respectfully, at the end of the fiscal year. Total net position in the Wastewater Utility Fund increased \$3,267,359. In 2015, sewer charges for service was \$13,050,235, which exceeded operating expenses of \$10,153,059. Total net position in the Stormwater Utility Fund decreased \$385,945. The decrease in net position was primarily due to additional expenses resulting from Pleasant Creek Re-Stabilization costs of \$1,607,418. Other business-type activities increased the City's net position by \$683,259.

General Fund Budgetary Highlights

Differences between the original expenditure budget and the final amended budget resulting in a \$1,199,100 increase in appropriation and is briefly summarized as follows:

- Budget carryovers of encumbrances resulting in a \$547,139 increase. Significant carryovers include \$32,537 for the General Fund, \$58,671 in various Fire Department equipment and \$152,257 for a Parks Department fleet vehicle.
- Other appropriation increases to the original budget were made in the amount of \$969,255 during the fiscal year. Significant activities which necessitated these increases were \$501,455 of additional appropriations to cover the cost of a 27th pay that occurred in FY 2015, and \$302,800 for Fire Department additional appropriations that were for equipment and upgrades to Station 91.

The final budgeted revenues and actual amount (budgetary basis) differed by \$1,097,541 during the year. This was primarily due to beating revenue budgets across the board. Items such as Other Revenue and General Property Taxes exceeded budget by \$601,125 and \$283,623 respectfully.

There were no significant variances between the final amended budget and actual expenditures. Actual expenditures were \$20,617,077 or 6.82% less than the final amended budget primarily due to Fire, Police, Board of Works and Safety, Parks and Recreation and Rainy Day all coming in under budget. In aggregate, actual expenditures increases 2.12% over FY 2014.

Capital Asset and Debt Administration

Capital assets: The City invested \$13,220,456 (net of accumulated depreciation) in capital assets governmental wide compared to \$14,973,096 for fiscal year 2014. Governmental Activities as of December 31, 2015 amounted to \$11,892,014 and business type activities amounted to \$1,328,442 (net of accumulated depreciation). The investment in capital assets included land, buildings and systems, improvements other than buildings, machinery and equipment, infrastructure such as roads and highways, and construction in progress.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Major events leading to changes in the capital asset balance during the current fiscal year include the following:

- Completion of I-65 Interchange Project
- Near completion of Worthsville Road Improvement Project Section 4
- Completion of Freedom Park Aquatic Center
- Continued updating of fleet vehicles, machinery, and equipment.
- Annexations resulting in the dedication of the new infrastructure to City's balance sheet.

The following table displays changes in the City's Capital Assets:

The City's long-term debt for governmental activities increased by \$186,370 during FY 2015. The increase is primarily due to issuance of two new General Obligation bonds. Each of these projects are further described in the Current Infrastructure and Development Projects section below. Additional information of the City's long-term debt can be found in Note 5 of this report.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

Political Factors, Economic Trends, and Budgets

Political Factors

Despite revenue diversification efforts since 2012, property tax revenue remains the principal source of revenue for funding governmental activities within the City of Greenwood.

The State of Indiana General Assembly enacted property tax reform legislation during the 2008 session. The reforms included limiting property tax bills to 1% of gross assessed value for residential homesteads, 2% for agricultural properties, and 3% for all other real and personal property.

Under the current system, taxable properties within the City are assessed based on market values. Each year properties are trended up or down by the County Assessor's Office. Property values are assessed by comparing properties to current sales trends in their respective neighborhoods.

The property tax reforms of 2008 combined with the national housing recession has produced large "circuit breaker credits" borne by all taxing units in a district. This combination of legislation and poor market performance has produced extensive reductions in property taxes available to the City since 2009.

In 2015, the City lost approximately \$940,566 in property tax levy due to circuit breaker caps. Since 2008, the City has realized \$4,046,580 in circuit breaker credits.

As a consequence of the state legislation, the City has enacted a variety of reforms since the start of fiscal year 2012. In 2012, the Stormwater Utility was created in order to prevent the General Fund from funding the ever increasing demands of aging Stormwater infrastructure and increasing water quality standards.

The City also addressed expenses in response to property tax legislation. No cost of living raise was included in the 2013 Budget and the employee share of the cost for health and disability insurance has steadily increased.

Economic Trends

Many of the City's most important alternative revenue streams are highly levered to economic growth. Sewer Availability Fees, Park Impact Fees, Building Permits, and many other user fees thrive as the macro-environment improves and consumers feel more confident. As such, the gradual economic recovery allowed for modest spending growth in the 2015 Budget.

However, due to the fragile and uneven nature of the national recovery, City management will continue to promote fiscal conservatism and promote only modest increases in fixed expenses.

Management subscribes to a conservative economic outlook driven by a slow and uneven recovery that produces little to no inflationary risk over the next fiscal period. The City's growth will remain contingent on job creation in the Central Indiana Region.

2017 Budget

The City is committed to creating and living within its fifth straight structurally balanced budget in 2017. The City will continue to offer a wide spectrum of governmental and utility services to citizens and customers without unduly stressing its limited revenue streams. In order to fulfill to the Mayor's goal to make the City "a City of Pride and Progress" we have outlined four specific priorities for the 2017 Budget.

CITY OF GREENWOOD, INDIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2015

These priorities are to enhance; 1.) Public Safety, 2.) Quality of Life, 3.) Economic Development, and 4.) Public Infrastructure.

Concerns for the 2017 Budget include increased circuit breaker losses and a growing need to replace slowly aging infrastructure throughout the City and its enterprises.

Current Infrastructure and Development Projects

The City of Greenwood and its various subdivisions are constantly pursuing infrastructure and economic development projects that will lead to an increased quality of life for citizens and visitors to the region. These projects include:

- **Worthsville Road Expansion-** A multi-year, \$21.5 million dollar expansion of an east-west corridor on the south side of the City. When completed the road will provide better travel between I-65 and U.S. 31.
- **Sanitary Sewer Reinvestment (GWD Project) -** Beginning in 2012, the Sanitary Sewer has refocused its operations to limit infiltration and inflow and meet benchmarks contained in a 2012 agreed order with the Indiana Department of Environmental Management (IDEM). In order to create a more efficient system and better protect waterways, the City has outlined a decade long capital improvement plan that will invest in Old Town Greenwood and will repair or replace miles of pipe throughout the Sanitary District. In 2014, \$7.5M of Revenue Bonds were issued to fund a complete replacement of the Pearl Street sewer and other infrastructure improvements in the Old Town basin.
- **Airport Capital Improvements-** The Administration of the City has made investment in the Greenwood Municipal Airport a central part of the region's economic development plan. In 2012, the Airport received over \$1 million dollars in federal grants to extend the runway beyond the 5,000 feet threshold key to increasing jet traffic. In 2014, the City purchased and remodeled an existing corporate hangar/office building on the property. Upon completion of construction, Indiana based aeronautical engineering firm NGC relocated their headquarters to the building. In 2014, the City completed construction of new \$500,000 corporate hangar to accommodate increasing traffic at the airport. In 2015, the Greenwood Redevelopment Commission approved \$630k for a variety of Airport Capital Improvements.
- **Downtown (Old Town) Redevelopment-** The current City Administration is committed to the revitalization of the Old Town district of the City. In 2013, approximately \$1 million was invested in completely rebuilding the former Pool Park in to a handicap accessible all-season Park rebranded as City Center Park. City Center Park is home to City's first splash pad and received over \$130,000 in private donations. In 2014, the City completed the City Center building located in the core of Old Town. In 2015, the City was awarded a 400k OCRA grant for Façade Improvements for Old Town businesses. The Greenwood Redevelopment Commission has committed \$830k for the local match.

Request for Information

This financial report is designed to provide a general overview of the City of Greenwood finances for those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Finance Department, City of Greenwood, 300 S. Madison Avenue, Greenwood, Indiana 46143.

CITY OF GREENWOOD, INDIANA
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2015

Total fund balances--governmental funds \$ 62,724,721

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital and other long-term assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Land	\$ 16,249,981	
Construction in progress	10,986,961	
Buildings and Improvements	45,330,425	
Machinery and equipment	14,812,050	
Infrastructure	179,467,313	
Accumulated depreciation	(89,225,190)	
Total capital assets	<u>177,621,540</u>	
Net pension asset	<u>1,010,465</u>	178,632,005

Some revenues in the governmental funds are deferred because they are not collected within the prescribed time period after year-end. On the accrual basis, however, those revenues would be recognized, regardless of when they are collected.

6,481,392

Deferred inflows and deferred outflows of resources applicable to the City's governmental activities do not involve available financial resources and accordingly are not reported on the fund financial statements

870,770

Some long-term liabilities and related assets are not due and payable in the current period and therefore are not reported in the funds. Those assets and liabilities consist of:

Long-term compensated absences	(315,587)	
Net pension asset/liability	(13,294,462)	
Accrued interest payable	(672,340)	
Long-term debt, including premium on refunding	(52,514,281)	
Total long-term liabilities	<u>(66,796,670)</u>	(66,796,670)

Net position of governmental activities	<u>\$ 181,912,218</u>
---	-----------------------

See accompanying notes to the basic financial statements.

See accompanying notes to the basic financial statements.

**CITY OF GREENWOOD, INDIANA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2015**

Net change in fund balances--total governmental funds \$ (2,193,224)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation and other transactions that impact capital assets in the current period.

Sale of Capital Assets	\$ 13,500	
Capital outlay expenditures	17,910,414	
Depreciation expense	(6,031,900)	
Net adjustment	<u>11,892,014</u>	11,892,014

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This adjustment is to recognize the net change in "unavailable" revenues. Under the modified accrual basis of accounting, revenues are not recognized unless they are deemed "available" to finance the expenditures of the current period; accrual-basis recognition is not limited by availability, so certain revenues need to be reduced by the amounts that were unavailable at the beginning of the year and increased by the amounts that were unavailable at the end of the year.

337,107

The issuance of long-term debt (e.g., bonds, certificates of obligation) provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are amortized to interest expense over the life of the bond in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Debt issued:		
General Obligation Bonds	(3,455,000)	
Capital Leases	(118,914)	
Total proceeds	<u>(3,573,914)</u>	
Repayments to bond and lease holders	5,748,121	
Net adjustment	<u>2,174,207</u>	2,174,207

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Increase in net pension liability	(1,694,984)	
Decrease in compensated absences liability	21,295	
Net adjustment	<u>(1,673,689)</u>	(1,673,689)

Change in net position of governmental activities \$ 10,536,415

See accompanying notes to the basic financial statements.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

1. Summary of Significant Accounting Policies

The accounting policies of the City of Greenwood, Indiana (City) as reflected in the accompanying financial statements for the year ended December 31, 2015, conform to accounting principles generally accepted in the United States of America (GAAP) for local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. A summary of the City's significant accounting policies applied in the preparation of the accompanying financial statements follows.

A. Reporting Entity

The City was established under the laws of the State of Indiana. The City operates under a Council-Mayor form of government and provides some or all of the following services: public safety (police and fire), highways and streets, social services, culture and recreation, public improvements, planning and zoning, general administrative services, wastewater, storm water, trash, aviation, and urban redevelopment and housing.

In evaluating the City's financial reporting entity, management has considered all potential component units. The decision to include a potential component unit in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14, The Financial Reporting Entity, GASB Statement No. 39, Determining Whether Certain Organizations are Component Units, and GASB Statement No. 61, Financial Reporting Entity- Omnibus. Organizations are included if the City is financially accountable for them, or the nature and significance of their relationship with the City are such that exclusion would cause the financial statements to be misleading. Inclusion is determined on the basis of the City's ability to exercise significant influence. Significant influence or accountability is based primarily on its operational or financial relationship with the City (as distinct from a legal relationship).

The City is financially accountable if it appoints a voting majority of an organization's governing body and is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the City. The City also is financially accountable if an organization is fiscally dependent on the City and potentially provides specific financial benefits to, or imposes specific financial burdens on the City.

Blended Component Units

Blended component units, although legally separate entities, are reported as part of the primary government because they meet the criteria above, and are so intertwined with the City that they are, in substance, the same as the City. The following blended component unit is reported as part of the primary government:

Greenwood Community Development Corporation – The Greenwood Community Development Corporation was established as a 501(c)(4) nonprofit corporation to encourage, support, and assist in the economic and redevelopment of the City through activities and projects designed to stimulate capital investment, revitalization and improvement of public and other spaces throughout the City. It's purpose is to also promote the social welfare of the City's residents by enhancing and improving the social, cultural and economic conditions in and around the City. The Greenwood Community Development Corporation was included as a blended component unit as the governing body is substantially the same

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

as the governing body of the City and there is a financial burden between the City and the Greenwood Community Development Corporation. The Greenwood Community Development Corporation does not issue separate financial statements.

B. Basis of Presentation

Government-Wide Statements

The two government-wide financial statements, the Statement of Net Position and the Statement of Activities, report information on all of the non-fiduciary activities of the City. Governmental activities, which include those activities primarily supported by taxes or intergovernmental revenue are reported separately from business-type activities, which generally rely on fees and charges for support. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer and solid waste functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The Statement of Activities demonstrates the extent to which the direct expenses of a functional category are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function. They also include operating and capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items properly excluded from program revenues are reported as general revenues.

Fund Financial Statements

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management activities and to demonstrate legal compliance. Separate statements are prescribed for governmental activities and for proprietary activities. These statements present each major fund as a separate column on the fund financial statements, while all non-major funds are aggregated and presented in a single column.

The City's fiduciary funds are presented in the fund financial statements. Since by definition these assets are being held for the benefit of a third party (healthcare plan participants and payroll clearing fund) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

The following is a brief description of the major funds used by the City:

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses, and balance of financial resources basis of accounting. The City reports the following major governmental funds.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

General Fund is the main operating fund of the City. The fund is used to account for all the financial resources that are not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

Debt Service Fund accounts for the accumulation of financial resources for the payment of principal, interest and related costs on long-term obligations paid primarily from taxes levied by the City. The fund balance of the Debt Service Fund is restricted to signify the amounts that are restricted exclusively for debt service expenditures.

Capital Projects Fund accounts for the City's purchase or construction of major capital facilities, which are not financed by other funds.

Eastside TIF Fund is a special revenue fund of the City and accounts for the City's economic development of the East-side TIF district within the City. The majority of the funds' costs are financed through the collection of property taxes assessed and collected on the district's property's captured assessed value. This fund does not have a legally adopted budget.

In addition to the major funds mentioned above, the City uses the following governmental fund types.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources requiring separate accounting because of legal or regulatory provisions or administrative action.

Proprietary Funds

Proprietary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flows. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources are included in the Statement of Net Position. The City reports the following major proprietary funds:

Wastewater Utility Fund accounts for the provision of sewer services to the residents of northern Johnson County. Activities of the funds include administration, billing and collection activities, and the operations, maintenance, and construction of sanitary sewer systems. The fund also accounts for the accumulation of resources for the payment of long-term principal and interest for sewer debt. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure the integrity of the system.

Stormwater Utility Fund accounts for the operation of the Stormwater Utility and provides funding for storm drainage capital improvements and maintenance of the stormwater drainage system in order to reduce stormwater related pollutants from entering the City's waterways.

Solid Waste Fund is used to account for solid waste services provided to the residents of the City. The fund's operations are financed by trash collection utility fees and cart rentals.

Other Enterprise Fund is a summary of the City's non-major enterprise, proprietary fund. This Fund is comprised of the Aviation Fund.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The Wastewater Utility Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, other governments, or other funds. This includes the pension trust fund, which accounts for activities related to the 1925 Police Pension Plan.

Fiduciary funds are not included in the government-wide financial statements.

Reconciliation of Government-Wide and Fund Financial Statements

A summary reconciliation of the difference between total fund balances as reflected on the governmental funds balance sheet and total net position for governmental activities as shown on the government-wide statement of net position is presented in an accompanying schedule to the governmental funds balance sheet. The asset and liability elements which comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. A summary reconciliation of the difference between net changes in fund balances as reflected on the governmental funds statement of revenues, expenditures, and changes in fund balances and change in net position for governmental activities as shown on the government-wide statement of activities is presented in an accompanying schedule to the governmental funds statement of revenues, expenditures, and changes in fund balances. The revenue and expense elements which comprise the reconciliation difference stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

C. Basis of Accounting

The government-wide statement of net position and statement of activities, all proprietary funds, and the fiduciary funds are reported and accounted for on the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these activities are either included on the statement of net position or on the statement of fiduciary net position. Revenues are recorded when earned and expenses are recorded when liabilities are incurred, regardless of the timing of the related cash flows. Examples of non-exchange transactions, in which the City either gives or receives value without directly receiving or giving equal value in exchange include sales taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from sales tax is recognized when the underlying "exchange" transaction takes place. Revenue from property tax is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

recognized in the fiscal year in which all eligibility requirements have been met. Contributions from members are recorded when the employer makes payroll deductions from Plan members. Employer contributions are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

The governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. This focus is on the determination of and changes in financial position. Revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current fiscal period. Revenues from taxes are generally considered available if received within 60 days after the fiscal year-end. Revenue from categorical and other grants are recognized when applicable eligibility requirements, including time requirements, are met and are generally considered available if received within 60 days after the fiscal year-end. Program revenues such as fines, licenses and permits, and other charges for services are generally considered to be measurable and available when the cash is received. Expenditures are recorded when the related liability is incurred and payment is due, except for principal and interest on long-term debt and certain estimated liabilities which are recorded only when the obligation has matured and is due and payable shortly after year-end as required by GASB Interpretation No. 6, *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements—an interpretation of NCGA Statements 1, 4, and 5; NCGA Interpretation 8; and GASB Statements No. 10, 16, and 18.*

D. Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Investment income is reported as revenue in the operating statement.

When both restricted and unrestricted resources are available for use for the same purpose, it is the City's policy to use restricted resources first, then unrestricted resources when they are needed.

State statute (IC 5-13-9) authorizes the City to invest in securities, including but not limited to, federal government securities, repurchase agreements, and certain money market mutual funds. Certain other statutory restrictions apply to all investments made by local governmental units.

E. Inventories

In governmental funds, inventories are valued at cost using the weighted average method of valuation. Inventories in the proprietary funds are stated at the lower of cost (determined by using weighted average cost or first-in, first-out methods) or fair value.

F. Capital Assets

Capital assets, which include land, buildings, infrastructure, vehicles, machinery, equipment, and construction in progress, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Capital assets are recorded at original cost or estimated fair market value as of the date of acquisition or donation for contributed assets. Repairs and maintenance are recorded as expenses. Certain renewals and betterments are capitalized.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

The capitalization threshold below is determined by the asset class.

- a) Land is capitalized regardless of the value or cost;
- b) Buildings, infrastructure, vehicles, machinery and equipment must be capitalized when the useful life is at least 1 year and the cost is \$5,000 or more;

Depreciation is recorded on each class of depreciable property using the straight-line method over the estimated useful lives of the assets. Estimated useful lives are as follows:

○ Buildings	5-50 years
○ Improvements Other than Buildings	10-50 years
○ Vehicles, Machinery and Equipment	5-20 years
○ Runways and Taxiways	25 years
○ Infrastructure	20-100 years

Included with the City's equipment capital assets, the City has capitalized an intangible asset: computer software. The City follows the same capitalization policy and estimated useful life for its intangible asset as it does for its equipment capital assets. The City also amortizes the intangible asset utilizing the straight-line method.

G. Taxes

Taxes include: property taxes, certified shares (local option tax), property tax replacement credit (local option tax), cigarette tax, alcoholic beverage commissions tax, wheel tax, innkeepers tax, food and beverage tax, county economic development income tax, vehicle, boat, and trailer excise tax county adjusted gross income tax, and other taxes that are set by the City.

Property taxes levied are collected by the County Treasurer and/or the appropriate state or local subdivision/agency as defined by local or state legislation. Property taxes are scheduled to be distributed to the City in June and December; however, situations can arise which would delay the distributions. State statute (IC 6-1.1-17-16) requires the Indiana Department of Local Government Finance to establish property tax rates and levies by February 15 of each calendar year. These rates were based upon the preceding year's March 1 (lien date) assessed valuations adjusted for various tax credits. Taxable property is assessed at 100 percent of the true tax value (determined in accordance with rules and regulations adopted by the Indiana Department of Local Government Finance). Taxes may be paid in two equal installments which normally become delinquent if not paid by May 10 and November 10, respectively.

H. Interfund Transactions

Interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is being reimbursed.

All other interfund transactions, except interfund service transactions and reimbursements, are reported as transfers.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

I. Compensated Absences

City employees earn personal leave and/or compensatory time, which may either be taken or accumulated until paid upon termination or retirement. Unused leave and compensated time may be accumulated to a specific maximum amount and personal leave may be paid upon termination, retirement or death for employees. Accumulated vacation and sick leave is accrued when incurred in the government-wide statement of net position and the proprietary statements. A liability for these amounts is reported in governmental fund statements, only if they have matured as a result of employee resignation or retirements in accordance with GASB Interpretation No. 6. For accrued amounts that are paid through proprietary funds, an expense and liability for the total future liability is recorded.

The amount of current year compensated absences related to both governmental and proprietary funds is budgeted annually as an expenditure or expense, as appropriate. Compensated absences related to the governmental funds are liquidated in appropriate funds as determined by management.

J. Pensions.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the 1925 Police Officers' Pension Plan (1925 Plan), Public Employees' Retirement Fund (PERF), and the 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Plan) and additions to/deductions from the aforementioned plans' fiduciary net position have been determined on the same basis as they are reported by the 1925 Plan, PERF and the 1977 Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

K. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The City has deferred outflows and deferred inflows related to their Pension Plans (see Note 7 for additional information on the City's Pension Plans). The City recognized a deferred outflow for City contributions made to Pension Plans made after the measurement date. In addition, the city has deferred outflows and deferred inflows related to differences between the Plans expected and actual experience, differences between projected and actual investment earnings on Pension Plan investments, change in Pension Plan assumptions, and changes in the proportion and differences between employer contributions and proportionate share of contributions.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

The City has unavailable revenue that is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

L. Fund Balance/Net Position

Net position is presented on the Statements of Net Position. Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any debt related to the acquisition, construction, or improvements of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

Fund Balance is presented on the Balance Sheet for Governmental Funds. The components of fund balance include the following line items: a) non-spendable fund balance, b) restricted fund balance, c) committed fund balance, d) assigned fund balance and e) unassigned fund balance. For further explanation of each fund balance component, please see the following:

- a) Non-spendable fund balance** (inherently non-spendable) include the:
 - Portion of net resources that cannot be spent because of their form.
 - Portion of net resources that cannot be spent because they must be maintained intact.
- b) Restricted fund balance** (externally enforceable limitations on use) include amounts subject to:
 - Limitations imposed by creditors, grantors, contributors, or laws and regulations of other governments.
 - Limitations imposed by law through constitutional provision or enabling legislation.
- c) Committed fund balance** (self-imposed limitations set in place prior to the end of the period):
 - Limitation imposed at the highest level of decision making that requires formal action (passage of City Ordinance) at the same level to remove. For the City, the City Council is the highest level of decision making.
- d) Assigned fund balance** (limitation resulting from intended use) consists of amounts where the:
 - Intended use is established by the body designated for that purpose (City Council).
 - Intended use is established by official designated for that purpose. For the City, the City Controller is the designated official.
- e) Unassigned fund balance** (residual net resources) is the:
 - Total fund balance in the General Fund in excess of non-spendable, restricted, committed, and assigned fund balance.
 - Negative unassigned fund balance is the excess of non-spendable, restricted, and committed fund balance over total fund balance.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

If there is an expenditure incurred for purposes for which both restricted and unrestricted fund balance is available, the City will consider the restricted fund balance to have been spent before unrestricted fund balance. Further, if there is an expenditure incurred for purposes for which committed, assigned, or unassigned fund balance classifications could be used, the City will consider committed fund balance to be spent before assigned fund balance, and consider assigned fund balance to be spent before unassigned fund balance.

The table below presents a break-out of fund balance by classification and purpose.

Fund Balance	General Fund	Debt Service Fund	Capital Projects Fund	Eastside TIF Fund	Nonmajor Governmental Funds	Total Fund Balance

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

M. Long-term Obligations

Long-term debt and other obligations for general government purposes are recorded in the government-wide statement of net position. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds and in the business-type activities on the government-wide statement of net position.

For the government-wide financial statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the bonds using the average bond balance method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed when incurred. In addition, gains and losses on bond refundings are amortized over the term of the lesser of the new bonds or the refunded bonds life using the straight-line method. In governmental funds, all bond related items are recognized in the current period.

N. Budgets

The operating budget is initially prepared and approved at the local level. The fiscal officer of the City submits a proposed operating budget to the governing board for the following calendar year. The budget is advertised as required by law. Prior to adopting the budget, the governing board conducts public hearings and obtains taxpayer comments. Prior to November 1, the governing board approves the budget for the next year. The budget for funds for which property taxes are levied or highway use taxes are received is subject to final approval by the Indiana Department of Local Government Finance.

O. Use of Estimates

The preparation of the basic financial statements in conformity with GAAP requires the City's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the basic financial statements and/or the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates, but the City believes that the differences will be insignificant. The City reports an item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category.

2. Cash and Investments

Deposits, made in accordance with state statute (IC 5-13), with financial institutions in the State of Indiana at year end should be entirely insured by the Federal Depository Insurance Corporation and/or by the Indiana Public Deposit Insurance Fund. This includes any deposit accounts issued or offered by a qualifying financial institution. As of December 31, 2015 deposits for the City including Fiduciary Funds had a carrying amount and a bank balance of \$73,429,369 and \$74,052,874, respectively.

Restricted cash and cash equivalents in the Wastewater Utility Fund of \$4,734,572 is maintained to meet debt service requirements on revenue bonds.

As of December 31, 2015, the City held \$7,005,868 in certificates of deposit (CDs) in which the carrying value approximated fair value. The CDs were covered by FDIC insurance up to \$500,000.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

3. Receivables and Transfers

A. RECEIVABLES

Receivables at December 31, 2015 for governmental activities of the City's individual major governmental funds and non-major governmental funds, in the aggregate, consisted of the following:

Revenue Source	General	Debt Service	Capital Projects	Eastside TIF	Non-major Governmental
Property Taxes	\$ 448,735	\$ 37,329	\$ 73,273	\$ -	\$ -
CAGIT Taxes	5,857,808	-	-	-	-
PTRC Taxes	1,224,501	-	-	-	-
Motor Vehicle Highway Taxes	-	-	-	-	5,417
Accounts and Other	215,395	-	4,049	527	60,126
Total Receivables	<u>\$ 7,746,439</u>	<u>\$ 37,329</u>	<u>\$ 77,322</u>	<u>\$ 527</u>	<u>\$ 65,543</u>

Receivables at December 31, 2015 for business-type activities of the City's individual major enterprise funds, in the aggregate, consisted of the following:

Revenue Source	Wastewater Utility	Stormwater Utility	Solid Waste
Accounts and Other	\$ 4,091,774	\$ 1,096,975	\$ 1,265,786
Fuel Reimbursements	22,523	-	-
Total Receivables	<u>\$ 4,114,297</u>	<u>\$ 1,096,975</u>	<u>\$ 1,265,786</u>

Governmental funds report deferred inflows in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the fiscal year, the various components of unavailable revenue reported in governmental funds were as follows:

Governmental Funds:

Description	Unavailable Revenue
CAGIT Taxes	\$ 4,891,506
LPTRC Taxes	1,020,418
Property Taxes	559,337
Other	10,131
Total Unavailable Revenue	<u>\$ 6,481,392</u>

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

B. TRANSFERS

Transfers made during the year are as follows:

Transfers Out	Transfers In		Totals
	General	Debt Service	
General	\$ -	\$ 73,048	\$ 73,048
East-Side TIF	-	909,110	909,110
Capital Projects	300,000	-	300,000
Non-Major Governmental	-	139,933	139,933
Wastewater Utility	1,075,000	-	1,075,000
Totals	<u>\$ 1,375,000</u>	<u>\$ 1,122,091</u>	<u>\$ 2,497,091</u>

Transfers are used to 1) move revenues from the fund with collection authorization to the Debt Service Fund as debt service principal and interest payments become due, 2) move restricted amounts from borrowings to the Debt Service Fund to establish mandatory reserve accounts, 3) move unrestricted revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

Significant transfers included the following:

- The General Fund transferred \$73,048 to the Debt Service Fund for funding of park and fire equipment debt service payments.
- The East-Side TIF Fund transferred \$909,110 to the Debt Service Fund to cover debt service reserve requirements.
- The Capital Projects Fund transferred \$300,000 to the General Fund to cover fund the City's long-term capital contingency.
- Non-Major Governmental Funds transferred \$139,933 to the Debt Service Fund to cover debt service reserve requirements.
- The Wastewater Utility Fund transferred \$1,075,000 to the General Fund for administrative services provided by the General Fund for wastewater activities.

It is the City's policy to record inter-fund reimbursements that are in excess of the underlying expenditures as transfers.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Totals	<u>\$ 18,155,000</u>	<u>\$ 4,803,722</u>	<u>\$ 22,958,722</u>

C. CAPITAL LEASES

The City has entered into various capital leases for equipment for various departments including Police, Fire, Public Works, and Wastewater Utility. As of December 31, 2015, the City had assets with an original cost of \$3,986,928 and accumulated depreciation of \$1,705,482 financed through capital leases. On January 1, 2015, governmental activities transferred a capital asset and corresponding lease payable in the amount of \$186,121 to the Stormwater Utility fund. This amount is included in the Additions/Transfers In amount included in the Business-Type Activities capital asset activity schedule.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

The City's Future minimum lease payments and present values of the net minimum lease payments under these capital leases as of December 31, 2015 are as follows:

Governmental Activities

Year Ended			
December 31	Principal	Interest	Total
2016	\$ 471,402	\$ 44,166	\$ 515,568
2017	495,820	35,063	530,883
2018	487,813	24,810	512,623
2019	336,846	15,328	352,174
2020	236,207	8,150	244,357
2021	191,193	3,183	194,376
Totals	<u>\$ 2,219,281</u>	<u>\$ 130,700</u>	<u>\$ 2,349,981</u>

Business-Type Activities

Year Ended			
December 31	Principal	Interest	Total
2016	\$ 116,197	\$ 10,235	\$ 126,432
2017	118,686	7,746	126,432
2018	121,228	5,204	126,432

2020	55,010	982	55,992
Totals	<u>\$ 499,727</u>	<u>\$ 26,773</u>	<u>\$ 526,500</u>

The City entered into operating lease agreements for the utilization of office equipment and office space. The lease terms range from 12 to 84 months. The following is a schedule by years of future minimum rental payments required under the operating leases as of December 31, 2015:

Year Ended December 31	Lease Payments
2016	\$ 74,787
2017	62,257
2018	60,984
2019	18,000
2020	18,000
2021	6,000
Total Minimum Payments Required	<u>\$ 240,028</u>

Total rental expense for the year was \$73,486.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

6. Risk Management

The City may be exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; medical benefits to employees, retirees, and dependents; and natural disasters.

These risks can be mitigated through the purchase of insurance, establishment of a self-insurance fund, and/or participation in a risk pool. The purchase of insurance transfers the risk to an independent third party. The establishment of a self-insurance fund allows the City to set aside money for claim settlements. The self-insurance fund would be included in the financial statement. The purpose of participation in a risk pool is to provide a medium for the funding and administration of the risks.

Medical Benefits

The City has chosen to establish a risk financing sub-account in the General fund to mitigate the risk of loss related to employee health claims. An excess policy through commercial insurance covers individual claims in excess of \$125,000 per year and provides an aggregate commercial insurance coverage of amounts over \$4,659,215. There were no significant reductions in insurance coverage's from prior years. Settled claims resulting from this risk did exceed aggregate commercial insurance coverage in the last three years. As a result, the City increased the aggregate commercial insurance coverage "stop loss" to \$4,000,000 in 2015.

Amounts are paid into the fund by user departments. Funds are available to pay claims, claim reserves, and administrative costs of the program. Interfund transfers into the fund are based upon the actual claims incurred of each department's current year eligible employees.

Changes in the balance of claim liabilities during the past two years are as follows:

	2014	2015
Unpaid claims, beginning of fiscal year	\$ 106,755	\$ 328,174
Incurred claims and changes in estimates	3,047,799	4,298,161
Claim payments	2,826,380	4,332,706
Unpaid claims, end of fiscal year	<u>\$ 328,174</u>	<u>\$ 293,629</u>

7. Pension Plans

A. Single Employer Defined Pensions Plan

1925 Police Officers' Pension Plan

Plan Description: The 1925 Police Officers' Pension Plan is a single-employer defined benefit pension plan. The plan is administered by the local pension board as authorized by state statute (IC 36-8-6). The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The plan was established by the plan administrator, as provided by state statute. The plan administrator

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

does not issue a publicly available financial report that includes financial statements and required supplementary information of the plan.

Benefits provided: Members of the police department hired prior to May 1, 1977 that retire with 20 or more years of active duty receive fifty percent of the salary of a first class patrol officer in the police department, plus:

1. If retires prior to January 1, 1986 receives 2% of the first class patrolman salary for each year of service in excess of 20, or;
2. If retires after December 31, 1985 receives 1% of first class patrolman salary for each 6 months of service in excess of 20 years. The total benefit may not exceed 74% of first class patrol officer salary.

The plan also offers a disability benefit whereas members of the policy department who have suffered or contracted a mental or physical disease or disability that renders the patrol officer unable to perform the essential function of any duty in the police department will receive the greater of 55% of first class patrol officer salary or the pension benefit the member would have received if the member would have retired on the disability date.

The plan also provides a death benefit for a surviving spouse to receive the greater of

1. 30% of the monthly pay of a first class patrol officer, or
2. 55% of the benefit the retiree was receiving.

In addition, each child of the deceased member will receive 20% of the monthly pay of a first class patrol officer. Total benefit for all beneficiaries may not exceed the pension benefit the deceased member was receiving. In addition to the above benefit, a funeral benefit of \$12,000 will be paid to heirs of the deceased member.

Membership in the 1925 Police Officers' Pension Plan of the most recent actuarial valuation was comprised of the following:

Retires and beneficiaries currently receiving benefits	11
Terminated employees entitled to but not yet receiving benefits	-
Current active employees	<u>1</u>
Total Plan Members	<u><u>12</u></u>

The plan is closed to new entrants.

Contributions: The plan is administered on a pay as you go basis. Plan members are required by state statute (IC 36-8-6-4) to contribute an amount equal to 6 percent of the salary of a first class patrolman. The City contributes to the plan based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended December 31, 2015, the City recognized \$380,443 in revenue and pension expense for contributions made by the State of Indiana on behalf of the City during the fiscal year.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Net Pension Liability and Pension Expense: The City's net pension liability of \$7,528,455 was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. For the year ended December 31, 2015, the City recognized pension expense of \$626,800.

Assumptions and Other Inputs

Actuarial assumptions: The following are the actuarial assumptions used in the December 31, 2015 valuation. The plan has not had a formal actuarial experience study performed. The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Methods and Assumptions

Actuarial valuation date	December 31, 2015
Actuarial cost method	Entry Age Normal
Amortization method	Level percent, closed
Retirement age	65 years
Turnover	N/A
Actuarial assumptions:	
Investment rate of return	3.60%
Projected salary increases	N/A
Cost of Living	2.25%
Adjustments	

An assumption study was performed in April 2015 resulting in an update to the following assumption:

- Mortality changed from the 2013 IRS Static Mortality projected five (5) years with Scale AA to the RP-2014 (with MP-2014 improvement removed) Total Data Set mortality table projected on a fully generational basis using the future mortality improvement scale inherent in the mortality projection included in the Social Security Administration's 2014 Trustee Report

Investments: The plan is administered on a pay as you go basis. The plan does not have any associated assets.

Receivables: At December 31, 2015, the plan had no receivables due from long-term contracts with the City.

Allocated Insurance Contracts: At December 31, 2015, the plan did not have allocated insurance contracts excluded from pension plan assets.

Reserves: At December 31, 2015, the plan had no reserves.

Discount Rate: The discount rate used to measure the total pension liability was 3.6% for the plan. The City makes ongoing benefit payments and is then reimbursed by the State of Indiana. Therefore, this is an unfunded plan and the discount rate for calculating the total pension liability is equal to a 20-year municipal bond index.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Changes in the Net Pension Liability:

	Increase (Decrease)

Balances as of December 31, 2015	<u>\$ 7,528,455</u>	<u>-</u>	<u>\$ 7,528,455</u>

Sensitivity of Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the City's net pension liability, calculated using a single discount rate of 3.60%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage- point lower or 1- percentage-point higher:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
1925 Police Officers' Pension Plan	\$8,556,097	\$7,528,455	\$6,692,156

B. Cost-Sharing Multiple Employer Defined Benefit Pension Plan

Public Employees' Retirement Fund

Plan Description: The City contributes to the Public Employees' Retirement Fund (PERF), which is administered by the Indiana Public Retirement System (INPRS). As part of the implementation of GASB Statement No. 67, *Financial Reporting for Pension Plans – An Amendment of GASB No. 25* (GASB No. 67), PERF changed from an agent to a cost sharing, multiple-employer defined benefit plan effective July 1, 2013, based on 35 IAC 21-1-1, 35 IAC 21-1-2 and amended IC 5-10.2-2-11(b). PERF was established to provide retirement, disability, and survivor benefits to full-time employees of the

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

State not covered by another plan, those political subdivisions that elect to participate in the retirement plan, and certain INPRS employees. Political subdivisions mean a county, city, town, township, political body corporate, public school corporation, public library, public utility of a county, city, town, township, and any department of, or associated with, a county, city, town, or township, which department receives revenue independently of, or in addition to, funds obtained from taxation. There are two (2) tiers to the PERF Plan. The first is the Public Employees' Defined Benefit Plan (PERF Hybrid Plan) and the second is the Public Employees' Annuity Savings Account Only Plan (PERF ASA Only Plan).

The PERF Hybrid Plan was established by the Indiana Legislature in 1945 and is governed by the INPRS Board of Trustees in accordance with IC 5-10.2, IC 5-10.3 and IC 5-10.5. There are two (2) aspects to the PERF Hybrid Plan defined benefit structure. The first portion is the monthly defined benefit pension that is funded by the employer. The second portion of the PERF Hybrid Plan benefit structure is the annuity savings account (ASA) that supplements the defined benefit at retirement.

The PERF ASA Only Plan was established by the Indiana Legislature in 2011, and is governed by the INPRS Board of Trustees in accordance with IC 5-10.3-12 and IC 5-10.5. This plan is funded by an employer and a member for the use of the member, or the member's beneficiaries or survivors, after the member's retirement. The PERF ASA Only Plan members are full-time employees of the State (as defined in IC 5-10.3-7-1(d)), who are in a position eligible for membership in the PERF Hybrid Plan and who elect to become members of the PERF ASA Only Plan. The PERF ASA Only Plan membership does not include individuals who: (1) before March 1, 2013; were members of the PERF Hybrid Plan or (2) on or after March 1, 2013, do not elect to participate in the PERF ASA Only Plan. Any government agency that pays employees through the Auditor of the State is a mandatory participant in the PERF ASA Only Plan and must offer eligible employees the PERF ASA Only Plan option. Quasi-government agencies and State educational institutions may choose to offer the PERF ASA Only Plan as an option to their employees. Since inception, 395 members have selected the PERF ASA Only Plan, or approximately 9 percent of eligible new hires of the State.

Members are required to participate in the ASA. The ASA consists of the member's contributions, set by statute at three (3) percent of compensation as defined by IC 5-10.2-3-2 for PERF, plus the interest/earnings or losses credited to the member's account. The employer may elect to make the contributions on behalf of the member. In addition, under certain conditions, members may elect to make additional voluntary contributions of up to 10 percent of their compensation into their ASA. A member's contributions and interest credits belong to the member and do not belong to the State or political subdivision.

Investments in the members' ASA are individually directed and controlled by plan participants who direct the investment of their account balances among eight (8) investment options, with varying degrees of risk and return potential. All contributions made to a member's account (member contribution subaccount and employer contribution subaccount) are invested as a combined total according to the member's investment elections. Members may make changes to their investment directions daily and investments are reported at fair value.

Financial report: INPRS issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the plan as a whole. This report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling (888) 526-1687, by emailing questions@inprs.in.gov, or by visiting www.in.gov/inprs.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Retirement Benefits: Defined Benefit Pension: The PERF Hybrid Plan retirement benefit consists of the sum of a defined pension benefit provided by employer contributions plus the amount credited to the member's ASA. Pension benefits (non ASA) vest after 10 years of creditable service. The vesting period is eight (8) years for certain elected officials. Members are immediately vested in their ASA. At retirement, a member may choose to receive a lump sum payment of the amount credited to the member's ASA, receive the amount as an annuity, or leave the contributions invested with INPRS. Vested PERF members leaving a covered position, who wait 30 days after termination, may withdraw their ASA and will not forfeit creditable service or a full retirement benefit. However, if a member is eligible for a full retirement at the time of the withdrawal request, he/she will have to begin drawing his/her pension benefit in order to withdraw the ASA. A non-vested member who terminates employment prior to retirement may withdraw his/her ASA after 30 days, but by doing so, forfeits his/her creditable service. A member who returns to covered service and works no less than six (6) months in a covered position may reclaim his/her forfeited creditable service.

A member who has reached age 65 and has at least 10 years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit component. This annual pension benefit is equal to 1.1 percent times the average annual compensation times the number of years of creditable service. The average annual compensation in this calculation uses the highest 20 calendar quarters of salary in a covered position. All 20 calendar quarters do not need to be continuous, but they must be in groups of four (4) consecutive calendar quarters. The same calendar quarter may not be included in two (2) different groups. For PERF members who serve as an elected official, the highest one (1) year (total of four (4) consecutive quarters) of annual compensation is used. Member contributions paid by the employer on behalf of the member and severance pay up to \$2,000 are included as part of the member's annual compensation.

A member who has reached age 60 and has at least 15 years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit. A member who is at least 55 years old and whose age plus number of years of creditable service is at least 85 is entitled to 100 percent of the benefits as described above.

A member who has reached at least age 50 and has at least 15 years of creditable service is eligible for early retirement with a reduced pension. A member retiring early receives a percentage of the normal annual pension benefit. The percentage of the pension benefit at retirement remains the same for the member's lifetime. For age 59, the early retirement percentage of the normal annual pension benefit is 89 percent. This amount is reduced five (5) percentage points per year (e.g., age 58 is 84 percent) to age 50 being 44 percent.

The monthly pension benefits for members in pay status may be increased periodically as cost of living adjustments (COLA). Such increases are not guaranteed by statute and have historically been provided on an "ad hoc" basis and can only be granted by the Indiana General Assembly. There was no COLA for the year ended June 30, 2015 or June 30, 2014; however, eligible members received a one-time check (a.k.a. 13th check) in September 2014 and September 2013. The amount of the one-time check ranged from \$150 to \$450, depending upon a member's years of service. The September 2014 one-time check was for a member who retired or was disabled on or before December 1, 2013, and who was entitled to receive a monthly benefit on July 1, 2014. The September 2013 one-time check was for a member who retired or was disabled on or before December 1, 2012, and who was entitled to receive a monthly benefit on July 1, 2013.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

The PERF Hybrid Plan also provides disability and survivor benefits. A member who has at least five (5) years of creditable service and becomes disabled while in active service, on FMLA leave, receiving workers' compensation benefits, or receiving employer-provided disability insurance benefits may retire for the duration of the disability, if the member has qualified for social security disability benefits and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. The minimum benefit is \$180 per month, or the actuarial equivalent.

Upon the death in service of a member with 15 or more years of creditable service as of January 1, 2007, a survivor benefit may be paid to the surviving spouse to whom the member had been married for two (2) or more years, or surviving dependent children under the age of 18. This payment is equal to the benefit which would have been payable to a beneficiary if the member had retired at age 50 or at death, whichever is later, under an effective election of the joint and survivor option available for retirement benefits. A surviving spouse or surviving dependent children are also entitled to a survivor benefit upon the death in service after January 1, 2007, of a member who was at least 65 years of age and had at least 10 but not more than 14 years of creditable service.

Funding Policy: Members are obligated by statute to make contributions to the PERF Hybrid Plan or the PERF ASA Only Plan. Any political subdivision that elects to participate in the PERF Hybrid Plan is obligated by statute to make contributions to the plan. The required contributions are determined by the INPRS Board of Trustees based on actuarial investigation and valuation in accordance with IC 5-10.2-2-11. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension benefits when they become due. As PERF is a cost-sharing plan, all risks and costs, including benefit costs, are shared proportionately by the participating employers.

During fiscal year 2015, all participating employers were required to contribute 11.2 percent of covered payroll for members employed by the State. For political subdivisions, an average contribution rate of 11.03 percent was required from employers during the period of July 1 – December 31, 2014, and an average contribution rate of 11.9 percent was required for the period of January 1 – June 30, 2015. For the PERF ASA Only Plan, all participating employers were also required to contribute 11.2 percent of covered payroll. In accordance to IC 5-10.3-12-24, the amount credited from the employer's contribution rate to the member's account shall not be less than 3 percent and not be greater than the normal cost of the fund which was 4.6 percent for fiscal year 2015, and any amount not credited to the member's account shall be applied to the pooled assets of the PERF Hybrid Plan.

The PERF Hybrid Plan or the PERF ASA Only Plan members contribute three (3) percent of covered payroll to their ASA, which is not used to fund the defined benefit pension for the PERF Hybrid Plan. For the PERF Hybrid Plan, the employer may elect to make the contributions on behalf of the member. The employer shall pay the member's contributions on behalf of the member for the PERF ASA Only Plan. In addition, members of the PERF Hybrid Plan (effective July 1, 2014, the PERF ASA Only Plan may also participate) may elect to make additional voluntary contributions, under certain criteria, of up to 10 percent of their compensation into their ASA.

PERF covered employees are required to contribute 3% of their compensation to the Fund and the City is required to contribute amounts, which are actuarially determined, sufficient to fund the retirement benefits. The City contributes the 3% employee's portion. In addition, some employees elect to make additional voluntary contributions to their PERF ASA Only Plans.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

The following represents the City's annual required contributions:

<u>Year Ended</u> <u>December 31</u>	<u>Annual Required</u> <u>Contribution</u>	<u>Percentage</u> <u>Contributed</u>
2015	\$ 759,451	100%

Significant Actuarial Assumptions: The total pension liability is determined by INPRS actuaries in accordance with GASB No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuations are presented below:

- Asset valuation date – June 30, 2015
- Liability valuation date – June 30, 2014 – Member census data as of June 30, 2014 was used in the valuation and adjusted, where appropriate, to reflect changes between June 30, 2014 and June 30, 2015. Standard actuarial roll forward techniques were then used to project the total pension liability computed as of June 30, 2014 to the June 30, 2015 measurement date.
- Experience study date – Period of 5 years ended June 30, 2010
- Actuarial cost method – Entry age normal (level percent of payroll)
- Investment rate of return – 6.75%
- COLA – 1.0%
- Future salary increases, including inflation – 2.5% - 4.25%
- Inflation – 2.25%
- Mortality - RP-2014 (with MP-2014 improvement removed) Total Data Set mortality table projected on a fully generational basis using the future mortality improvement scale inherent in the mortality projection included in the Social Security Administration's 2014 Trustee Report

An assumption study was performed in April 2015 resulting in an update to the following assumptions:

- Inflation decreased from 3.00% to 2.25%
- The future salary increase rate decreased from a table ranging from 3.25% to 4.50% to a table ranging from 2.50% to 4.25%
- Mortality changed from the 2013 IRS Static Mortality projected five (5) years with Scale AA to the RP-2014 (with MP-2014 improvement removed) Total Data Set mortality table projected on a fully generational basis using the future mortality improvement scale inherent in the mortality projection included in the Social Security Administration's 2014 Trustee Report
- Retirement, Termination and Disability rates were adjusted to reflect recent experience
- The ASA Annuitization was updated from 50% of members assumed to annuitize the ASA balance to 60% of members prior to January 1, 2017

The long-term return expectation for the defined benefit retirement plan has been determined by using a building-block approach and assumes a time horizon, as defined in the INPRS Investment Policy Statement. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

	<u>Target</u> <u>Asset Allocation</u>	<u>Geometric Basis</u> <u>Long-Term Expected</u> <u>Real Rate of Return</u>
		<u>2015</u>
Public Equity	22.5%	5.3%
Private Equity	10.0%	5.6%
Fixed Income – Inflation-Linked	22.0%	2.1%
Fixed Income – Inflation-Linked	10.0%	0.7%
Commodities	8.0%	2.0%
Real Estate	7.5%	3.0%
Absolute Return	10.0%	3.9%
Risk Parity	10.0%	5.0%

Total pension liability for each defined benefit pension plan was calculated using the discount rate of 6.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and where applicable from the members, would at the minimum be made at the actuarially determined required rates computed in accordance with the current funding policy adopted by the INPRS Board, and contributions required by the State (the non-employer contributing entity) would be made as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (6.75 percent). Based on those assumptions, each defined benefit pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members; therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability for each plan.

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability of each defined benefit pension plan calculated using the discount rate of 6.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%), or one percentage point higher (7.75%) than the current rate:

	<u>1% Decrease</u>	<u>Current Rate</u>	<u>1% Increase</u>
	(5.75%)	(6.75%)	(7.75%)
2015	\$ 8,505,355	\$5,766,007	\$3,491,848

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in a stand-alone financial report of INPRS that includes financial statements and required supplementary information for the plan as a whole. This report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling (888) 526-1687, by emailing questions@inprs.in.gov, or by visiting www.in.gov/inprs.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Investment Valuation and Benefit Payment Policies: The pooled and non-pooled investments are reported at fair value by INPRS. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Short-term investments consist primarily of cash, money market funds, certificates of deposits and fixed income instruments with maturities of less than one year. Short-term investments are reported at cost, which approximates fair value or, for fixed income instruments, valued using similar methodologies as other fixed income securities described below.

Fixed income securities consist primarily of the U.S. government, U.S. government-sponsored agencies, publicly traded debt and commingled investment debt instruments. Equity securities consist primarily of domestic and international stocks in addition to commingled equity instruments. Fixed income and equity securities are generally valued based on published market prices and quotations from national security exchanges and securities pricing services. Securities that are not traded on a national security exchange are valued using modeling techniques that include market observable inputs required to develop a fair value. Commingled funds are valued using the net asset value (NAV) of the entity.

Alternative investments include limited partnership interests in private equity, absolute return, private real estate and risk parity investment strategies. Publicly traded alternative investments are valued based on quoted market prices. In the absence of readily determinable public market values, alternative investments are valued using current estimates of fair value obtained from the general partner or investment manager. Moreover, holdings are generally valued by a general partner or investment manager on a quarterly or semi-annual basis. Valuation assumptions are based upon the nature of the investment and the underlying business.

Additionally, valuation techniques will vary by investment type and involve a certain degree of expert judgment. Alternative investments, such as investments in private equity or real estate, are generally considered to be illiquid long-term investments. Due to the inherent uncertainty that exists in the valuation of alternative investments, the realized value upon the sale of an asset may differ from the fair value.

Derivative instruments are marked to market daily with changes in fair value recognized as part of investments and investment income.

Pension, disability, special death benefits, and distributions of contributions and interest are recognized when due and payable to members or beneficiaries. Benefits are paid once the retirement or survivor applications have been processed and approved. Distributions of contributions and interest are distributions from inactive, non-vested members' ASAs. These distributions may be requested by members or auto-distributed by the fund when certain criteria are met.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At December 31, 2015, the City reported a liability of \$5,766,007 for its proportionate share of the net pension liability. The City's proportionate share of the net pension liability was based on the City's wages as a proportion of total wages for the PERF Hybrid Plan. The proportionate share used at the June 30, 2015 measurement date was 0.0014157.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

For the year ended December 31, 2015, the City recognized pension expense of \$1,233,713, which included net amortization of deferred amounts from changes in proportion and differences between employer contributions and proportionate share of contributions. At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to the PERF Hybrid Plan from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 247,504	\$ 11,925
Net difference between projected and actual earnings on pension plan investments	972,221	542,271
Changes in assumptions	487,421	-
Changes in proportion and differences between City contributions and proportionate share of contributions	<u>138,317</u>	<u>6,937</u>
Total that will be recognized in pension expense (income) based on table below	1,845,463	561,133
Pension contributions subsequent to measurement date	<u>398,429</u>	<u>-</u>
Total	<u>\$ 2,243,892</u>	<u>\$ 561,133</u>

Deferred outflows of resources resulting from employer contributions subsequent to the June 30, 2015 measurement date are recognized as a reduction of net pension liability in the year ending December 31, 2016. Deferred inflows of resources resulting from the differences between projected and actual investment earnings on Plan investments are amortized over a 5 year period. A change in an employer's proportionate share: represents the change as of the current year measurement date versus the prior year measurement date, and is amortized over the average expected remaining service lives of the plan. The difference between an employer's contributions and the employer's proportionate share of the collective contributions is amortized over the average expected remaining service lives of the plan. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$418,999
2017	418,999
2018	203,276
2019	243,056

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

1977 Police Officers' and Firefighters' Pension and Disability Fund

Plan Description: The 1977 Police Officers' and Firefighters' Pension and Disability Fund is a cost-sharing multiple-employer defined benefit pension plan administered by the Indiana Public Retirement System (INPRS) for all police officers and firefighters hired after April 30, 1977.

State statute (IC 36-8-8) regulates the operations of the system, including benefits, vesting, and requirements for contributions by employers and by employees. Covered employees may retire at age 55 with 20 years of service. An employee with 20 years of service may leave service, but will not receive benefits until reaching age 55. The plan also provides for death and disability benefits.

Financial report: INPRS issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole and for its participants. This report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling (888) 526-1687, by emailing questions@inprs.in.gov, or by visiting www.in.gov/inprs.

Funding Policy: Plan members are required to contribute 6 percent of the first-class police officers' and firefighters' salary and the primary government is to contribute at an actuarially determined rate. The current rate is 19.7 percent of the first class police officers' and firefighters' salary. The contribution requirements of plan members and the primary government are established by the Board of Trustees of INPRS.

Retirement Benefits: A member vests after 20 years of service. If the member retires at or after the age of 52 with 20 years of service, the benefit is equal to 50 percent of the salary of a first class officer, as reported by the employer in the year the 1977 Fund member ended service plus one (1) percent of that salary for each six (6) months of active service over 20 years to a maximum of 12 years. At age 50 and with 20 years of service, a member may elect to receive a reduced benefit by a factor established by the fund's actuary (IC 36-8-8-11).

The monthly pension benefits for members in pay status may be increased annually in accordance with the cost of living adjustment (COLA) statute (IC 36-8-8-15). A member is entitled to an annual increase in the member's benefit based on the percentage increase in the Consumer Price Index (January-March); however, the maximum increase is 3.0 percent. There was a COLA increase of 1.4 percent effective July 1, 2014. The plan is closed to new entrants.

Significant Actuarial Assumptions: The actuarial assumptions used in the June 30, 2015 valuations were adopted by the Board pursuant to the experience studies completed in April 2015, which reflected the experience period from July 1, 2010 through June 30, 2014. The June 30, 2015 valuations incorporate member census data as of June 30, 2014, adjusted for certain activity during fiscal year 2015. Standard actuarial techniques were used to roll forward valuation results over one year.

The actuarial assumptions and methods are summarized in the Actuarial Assumptions and Methods section of each valuation report. We believe the actuarial assumptions and methods are reasonable for the purposes of the valuation reports and comply with the parameters set forth in Statements No. 67 and No. 68 of the Governmental Accounting Standards Board ("GASB"). Different assumptions and methods may be reasonable for other purposes. As such, the results presented in the valuation reports should only be relied upon for the intended purpose.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Difference between expected and actual experience: the actuaries use assumptions such as future salary increases and inflation to develop what they expect to be the experience of the pension plan. Each year the difference between the expected experience and the actual experience is amortized over the average expected remaining service lives of the plan.

Net difference between projected and actual investment earnings: the actuaries use the pension plan's expected long term rate of return to project investment earnings net of investment expenses. The difference between the expected and the actual investment earnings is deferred and amortized over five years.

Changes in assumptions: an assumption study was performed in April 2015 resulting in an update to the following assumptions:

- Inflation decreased from 3.00% to 2.25%
- The future salary increase rate decreased from 3.25% to 2.50% per year
- Future COLA decreased from 2.25% to 2.00% per year
- Mortality changed from the 2013 IRS Static Mortality projected five (5) years with Scale AA to the RP-2014 (with MP-2014 improvement removed) Blue Collar mortality tables, with future mortality improvement projected generationally using future mortality improvement inherent in the Social Security Administration's 2014 Trustee report
- Disability and Termination rates were adjusted to reflect recent experience

A change in an employer's proportionate share: represents the change as of the current year measurement date versus the prior year measurement date, and is amortized over the average expected remaining service lives of the plan.

The difference between an employer's contributions and the employer's proportionate share of the collective contributions is amortized over the average expected remaining service lives of the plan.

The long-term return expectation for the defined benefit retirement plan has been determined by using a building-block approach and assumes a time horizon, as defined in the INPRS Investment Policy Statement. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

	<u>Target</u> <u>Asset Allocation</u>	<u>2015 Geometric Basis</u> <u>Long-Term Expected</u> <u>Real Rate of Return</u>
Public Equity	22.5%	5.3%
Private Equity	10.0%	5.6%
Fixed Income – Inflation-Linked	22.0%	2.1%
Fixed Income – Inflation-Linked	10.0%	0.7%
Commodities	8.0%	2.0%
Real Estate	7.5%	3.0%
Absolute Return	10.0%	3.9%
Risk Parity	10.0%	5.0%

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Total pension liability for each defined benefit pension plan was calculated using the discount rate of 6.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and where applicable from the members, would at the minimum be made at the actuarially determined required rates computed in accordance with the current funding policy adopted by the INPRS Board, and contributions required by the State (the non-employer contributing entity) would be made as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (6.75 percent). Based on those assumptions, each defined benefit pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members; therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability for each plan.

The net pension liability (asset) is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability of each defined benefit pension plan calculated using the discount rate of 6.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%), or one percentage point higher (7.75%) than the current rate:

	<u>1% Decrease</u> (5.75%)	<u>Current Rate</u> (6.75%)	<u>1% Increase</u> (7.75%)
2015	\$ 4,252,688	(\$1,010,465)	(\$5,254,251)

Investment Valuation and Benefit Payment Policies: The pooled and non-pooled investments are reported at fair value by INPRS. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Short-term investments consist primarily of cash, money market funds, certificates of deposits and fixed income instruments with maturities of less than one year. Short-term investments are reported at cost, which approximates fair value or, for fixed income instruments, valued using similar methodologies as other fixed income securities described below.

Fixed income securities consist primarily of the U.S. government, U.S. government-sponsored agencies, publicly traded debt and commingled investment debt instruments. Equity securities consist primarily of domestic and international stocks in addition to commingled equity instruments. Fixed income and equity securities are generally valued based on published market prices and quotations from national security exchanges and securities pricing services. Securities that are not traded on a national security exchange are valued using modeling techniques that include market observable inputs required to develop a fair value. Commingled funds are valued using the net asset value (NAV) of the entity.

Alternative investments include limited partnership interests in private equity, absolute return, private real estate and risk parity investment strategies. Publicly traded alternative investments are valued based on quoted market prices. In the absence of readily determinable public market values, alternative investments are valued using current estimates of fair value obtained from the general partner or investment manager. Moreover, holdings are generally valued by a general partner or investment manager on a quarterly or semi-annual basis. Valuation assumptions are based upon the nature of the investment and the underlying business.

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Additionally, valuation techniques will vary by investment type and involve a certain degree of expert judgment. Alternative investments, such as investments in private equity or real estate, are generally considered to be illiquid long-term investments. Due to the inherent uncertainty that exists in the valuation of alternative investments, the realized value upon the sale of an asset may differ from the fair value.

Derivative instruments are marked to market daily with changes in fair value recognized as part of investments and investment income.

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in a stand-alone financial report of INPRS that includes financial statements and required supplementary information for the plan as a whole. This report may be obtained by writing the Indiana Public Retirement System, One North Capitol, Suite 001, Indianapolis, IN 46204, by calling (888) 526-1687, by emailing questions@inprs.in.gov, or by visiting www.in.gov/inprs.

Annual Pension Cost

The primary government's contributions to the plan for the year ended December 31, 2015 were \$1,069,280 equal to the required contributions for each year.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At December 31, 2015, the City reported an asset of \$1,010,465 for its proportionate share of the net pension asset. The City's proportionate share of the net pension asset was based on the City's wages as a proportion of total wages for the Plan. The proportionate share used at the June 30, 2015 measurement date was 0.00684040.

For the year ended December 31, 2015, the City recognized pension expense of \$1,132,005, which included net amortization of deferred amounts from changes in proportion and differences between employer contributions and proportionate share of contributions. At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to the 1977 Plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 0	\$ 439,950
Net difference between projected and actual earnings on pension plan investments	1,972,181	1,051,467
Changes in assumptions	0	1,891,542
Changes in proportion and differences between City contributions and proportionate share of contributions	<u>73,337</u>	<u>29,455</u>
Total that will be recognized in pension expense (income) based on table below	2,045,518	3,411,914
Pension contributions subsequent to measurement date	<u>554,407</u>	<u>-</u>
Total	<u>\$ 2,599,925</u>	<u>\$3,411,914</u>

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

Deferred outflows of resources resulting from employer contributions subsequent to the June 30, 2015 measurement date are recognized as a reduction of net pension liability in the year ending December 31, 2016. Deferred inflows of resources resulting from the differences between projected and actual investment earnings on Plan investments are amortized over an 8 year period. A change in an employer's proportionate share: represents the change as of the current year measurement date versus the prior year measurement date, and is amortized over the average expected remaining service lives of the plan. The difference between an employer's contributions and the employer's proportionate share of the collective contributions is amortized over the average expected remaining service lives of the plan. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	(\$133,062)
2017	(133,062)
2018	(133,062)
2019	217,428
2020	(275,618)
Thereafter	<u>(909,021)</u>
Total	<u>(\$1,366,396)</u>

8. COMMITMENTS AND CONTINGENCIES

Various claims and lawsuits are pending against the City. At December 31, 2015, no material claims or lawsuits were pending against the City.

At December 31, 2015, the City had unspent bond proceeds in governmental activities of approximately \$10.0 million. Of this amount, the City had significant construction commitments at December 31, 2015, comprised of the following:

Governmental Activities:	<u>Project Authorization</u>	<u>Expended to December 31, 2015</u>	<u>Interest Expended on Project</u>	<u>Committed</u>
Freedom Park Aquatic Center	\$ 9,000,000	\$ 8,730,040	16,638	\$ 286,598
Worthsville Road Expansion	21,485,000	14,967,667	37,693	6,555,026
I-65 Interchange	9,381,500	9,377,728	11,185	14,957
Community Center	1,978,477	66,010	-	1,912,467
Fire Trucks	1,266,500	11,894	-	1,254,606
Capital Assets	5,005,200	4,993,440	1,163	12,923
Total	<u>\$ 48,116,677</u>	<u>\$ 38,146,779</u>	<u>\$ 66,679</u>	<u>\$ 10,036,577</u>

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

9. NEW ACCOUNTING STANDARDS

During fiscal year 2015, the City adopted the following GASB Statements:

GASB 68, *Accounting and Financial Reporting for Pensions*. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The implementation of this standard resulted in an unfunded pension liability to be recognized on the Statement of Net Position. Based on the implementation of Statement No. 68, the City's January 1, 2015 net position was restated by \$9,503,309 because of the recognition of the net pension liability, net pension asset, and deferred outflows of resources. See Note 7 for additional information on Pensions.

GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The requirements of this Statement will eliminate the source of a potential significant understatement of restated beginning net position and expense in the first year of implementation of Statement No. 68 in the accrual-basis financial statements of employers and nonemployer contributing entities. See Note 7 for additional information on Pensions.

Other accounting standards that the City is currently reviewing for applicability and potential impact on future financial statements include:

In February 2015, the GASB issued Statement 72, *Fair Value Measurement and Application*. The objective of this Statement is to address accounting and financial reporting issues related to fair value measurements and provide guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. This Statement is effective for the City's fiscal year ending December 31, 2016. Management has not determined what impact, if any, this statement will have on its financial statements.

In June 2015, the GASB issued Statement 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. This Statement establishes requirements for those pensions and pension plans that are not administered through a trust not covered by Statements 67 and 68. This Statement is effective for the City's fiscal year ending December 31, 2016. Management has not determined what impact, if any, this statement will have on its financial statements.

In June 2015, the GASB issued Statement 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Statement 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in Statement 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. Statement 74 also sets forth note disclosure requirements for defined contribution OPEB plans. This Statement is effective for the City's fiscal year ending December 31, 2017. Management has not determined what impact, if any, this statement will have on its financial statements.

In June 2015, the GASB issued Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This Statement replaces the requirements of Statement 45 and requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. This Statement is effective for the City's fiscal year ending December 31, 2018. Management has not determined what impact, if any, this statement will have on its financial statements.

In June 2015, the GASB issued Statement 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This Statement is intended to improve financial reporting for governments by establishing a framework for the evaluation of accounting guidance that will result in governments applying that guidance with less variation. That will improve the usefulness of financial statement information for making decisions and assessing accountability and enhance the comparability of financial statement information among governments. The Statement also is intended to improve implementation guidance by elevating its authoritative status to a level that requires it be exposed for a period of broad public comment prior to issuance, as is done for other GASB pronouncements. This Statement is effective for the City's fiscal year ending December 31, 2016. This will have no impact on the presentation of the financial statements.

In August 2015, the GASB issued Statement 77, *Tax Abatement Disclosures*. This Statement is intended to improve financial reporting by requiring disclosure of tax abatement information about a reporting government's own tax abatement agreements and those that are entered into by other governments and that reduce the reporting government's tax revenues. This Statement is effective for the City's fiscal year ending December 31, 2016. Management has not determined what impact, if any, this statement will have on its financial statements.

In December 2015, the GASB issued Statement 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local government employers whose employees are provided with such pensions. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employees through a cost-sharing multiple-employer defined benefit pension plan that is not a state or local governmental pension plan, is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pension through the pension plan). This Statement establishes requirements for recognition and measurement

CITY OF GREENWOOD, INDIANA
NOTES TO THE BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2015

of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. This Statement is effective for the City's fiscal year ending December 31, 2016. Management has not determined what impact, if any, this statement will have on its financial statements.

In December 2015, the GASB issued Statement 79, *Certain External Investment Pools and Pool Participants*. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. The specific criteria address (1) how the external investment pool transacts with participants; (2) requirements for portfolio maturity, quality, diversification, and liquidity; and (3) calculation and requirements of a shadow price. Significant noncompliance prevents the external investment pool from measuring all of its investments at amortized cost for financial reporting purposes. This Statement is effective for the City's fiscal year ending December 31, 2016. Management has not determined what impact, if any, this statement will have on its financial statements.

In December 2015, the GASB issued Statement 80, *Blending Requirements for Certain Component Units – An Amendment of GASB Statement 14*. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. This Statement is effective for the Village's fiscal year ending December 31, 2017. Management has not determined what impact, if any, this statement will have on its financial statements.

The City has not finalized its determination of the effect that the implementation of these new accounting standards will have on the City's financial statements or disclosures, as of the date of this report.

Net Change in Fund Balance (GAAP Basis)	<u>\$ 2,313,607</u>

See accompanying note to the required supplementary information.

CITY OF GREENWOOD, INDIANA
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2015

ADOPTED BUDGET

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The City and many other governments revise their original budgets over the course of the year for a variety of reasons.

The City adheres to the following procedures in establishing the operating budget:

On or before August 31 of each year, the City Controller submits to the City Council a proposed budget for the fiscal year beginning the following January 1. Prior to adoption, the budget is advertised and public hearings are conducted by the Common Council to obtain taxpayer comments. In September of each year, the City Council through the passage of an ordinance approves the budget for the next year. Copies of the budget ordinance and the advertisement for funds for which property taxes are levied are sent to the Indiana Department of Local Government Finance. The budget becomes legally enacted after the City receives approval of the Indiana Department of Local Government Finance.

An annual budget, including debt service requirements, is legally adopted for the General Fund on a cash basis of accounting, which is not consistent with Accounting Principles Generally Accepted in the United States of America (GAAP). The City does not have a legally adopted budget for revenues. However, the City does estimate revenues on a cash basis of accounting. Certain expenditures, other financing sources, administrative costs, indirect costs, and transfers are not budgeted. Therefore, a reconciliation is presented on the Budgetary Comparison Schedule to reconcile the Budgetary Basis revenues and expenditures to the GAAP Basis revenues and expenditures. Management control and the legal level of control for the General Fund budget are maintained at the departmental level.

The City Council must approve any additional appropriations to the budget, which are then forwarded to the Department of Local Government and Finance for approval. The City Controller has the authority, without City Council approval, to transfer appropriation balances from one account to another within a departmental series. Any appropriation transfers between departmental account series require both City Controller and City Council approval. Supplemental appropriations of \$1,199,100 were approved by the City Council. The reported budgetary data includes amendments made during the year. At the close of each fiscal year, any appropriated balance in the General Fund lapses to fund balance.

Formal budgetary integration is required by state statute and is employed as a management control device. The Capital Project fund of the City is budgeted at a project level and as such a budgetary comparison schedule is not presented for that fund. An annual budget was legally adopted for the following funds:

Major Governmental Funds:

- General Fund
- Debt Service Fund

Non-major Governmental Funds:

- Road & Street Fund
- Adult Probation Services Fund
- Clerks Record Perpetuation Fund

City's Proportion of the Net Pension Liability	0.684%
City's Proportionate Share of the Net Pension Liability (Asset)	\$ (1,010,465)
City's Covered Employee Payroll	\$ 5,100,896
City's Proportionate Share of the Net Pension Asset as a Percentage of its Covered Employee Payroll	-19.81%
1977 Plan Net Position as a Percentage of Total Pension Asset	103.20%

Note: The City implemented GASB No. 68 in fiscal year 2015. The information above is presented for as many years as available. The Schedule is intended to show information for 10 years.

The amounts presented for each year were determined as of the Plan's June 30 year-end that occurred within the City's fiscal year.

CITY OF GREENWOOD, INDIANA
REQUIRED SUPPLEMENTARY INFORMATION
DEFINED BEFEBIT PENSION PLANS - MULTIPLE EMPLOYER PLANS
SCHEDULE OF CITY CONTRIBUTIONS
December 31, 2015

Public Employees' Retirement Fund:

	Contractually Required Contributions	City Contributions related to the Contractually required contributions	Contribution Deficiency (Excess)	City's Covered Employee Payroll	Contributions as a Percentage of Covered Employee Payroll
2015	\$ 759,451	\$ 759,451	\$ -	\$ 6,780,826	11.20%

1977 Police Officers' and Firefighters' Pension and Disability Fund:

	Contractually Required Contributions	City Contributions related to the Contractually required contributions	Contribution Deficiency (Excess)	City's Covered Employee Payroll	Contributions as a Percentage of Covered Employee Payroll
2015	\$ 1,069,280	\$ 1,069,280	\$ -	\$ 5,100,896	20.96%

Notes to Schedule:

An assumption study was performed in April 2015 resulting in an update to the following assumptions:

- Inflation decreased from 3.00% to 2.25%
- The future salary increase rate decreased from a table ranging from 3.25% to 4.50% to a table ranging from 2.50% to 4.25%
- Mortality changed from the 2013 IRS Static Mortality projected five (5) years with Scale AA to the RP-2014 (with MP-2014 improvement removed) Total Data Set mortality table projected on a fully generational basis using the future mortality improvement scale inherent in the mortality projection included in the Social Security Administration's 2014 Trustee Report
- Retirement, Termination and Disability rates were adjusted to reflect recent experience
- The ASA Annuitization was updated from 50% of members assumed to annuitize the ASA balance to 60% of members prior to January 1, 2017

Note: The City implemented GASB No. 68 in fiscal year 2015. The information above is presented for as many years as available. The Schedule is intended to show information for 10 years.

Note: Covered payroll for the purposes of this schedule was determined as of the Plan's June 30 year end that occurred within the City's fiscal year.

Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds from specific revenue sources (other than expendable trusts, major capital projects, or proprietary funds) that are legally restricted to expenditures for specified purposes.

Parks Non-Reverting Fund is restricted to expenditures for the parks recreational programs. The revenues generated for this fund are from the fees collected for the programs.

Adult Probation Services Fund is used to administer the adult probation services of the City. This fund is supported by fees collected from the participants.

Airport Blvd TIF Fund was created on November 13, 2001 as an expansion of 25 acres to the original TIF Eastside District. This fund was for the reconstruction and maintenance of Airport Boulevard. The fund receives incremental property tax dollars from the 25 acre expansion.

Cabela's TIF Fund was created to provide infrastructure and support for a private investment by Cabela's Retail, Inc. mega store. Revenues for this fund are received from property tax dollars within the tax increment district.

Clerks Record Perpetuation Fund is used for the preservation of records and the improvement of record keeping systems and equipment. Revenue received by the Clerk for the copying or transmitting of court related documents, document storage fees and administrative costs for collecting probation user fees are deposited into this fund.

Courts Fund is the Greenwood City Court's fund for bail bonds, user fees collected from various court programs and property seizures from arrests are deposited into this fund.

Donations Fund is used to account for contributions from various organizations and individuals. The use of these resources is restricted to a particular function of the City by each donor.

Fry Road TIF Fund was created on December 28, 1998 pursuant to the Indiana Code, 36-7-14 and 36-7-25. The Zone is set to expire within 30 years. This area was created to provide and improve infrastructure to encourage economic development.

Grants Fund is used to account for grant resources received from various local, state and federal agencies and organizations. The use of these resources is restricted to a particular function of the City by each grantor.

Independent Engineering Fund is a special fund to administer monies received for independent engineering fees regarding outside reviews of development plans.

Police Equipment & Education Fund was established to be used for the purchase, repair and maintenance of Police Department equipment and for the training of Police Department Personnel. Monies received from unrestricted donations are deposited into this fund.

Road & Street Fund is mainly supported by highway tax distributions from the State. This fund is restricted to the construction and maintenance of streets and alleys.

Greenwood Community Development Corporation Fund was established to encourage, support, and assist in the economic and redevelopment of the City through activities and projects designed to stimulate capital investment, revitalization and improvement of public and other spaces throughout the City.

Nonmajor Enterprise Fund

Nonmajor Enterprise Funds are used to account for the acquisition, operation, and maintenance of governmental facilities and services, which are entirely or predominantly self-supported by user charges. The operations of Proprietary Funds are accounted for in such manner as to show a profit or loss similar to comparable private enterprises.

Aviation Fund

The Aviation Fund is used to account for the Greenwood Municipal Airport operations. Revenues are derived principally from hangar and terminal building rental, landing fees and fuel surcharges.

Statistical Section

This part of the City of Greenwood's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the Financial Statements, Note Disclosures, and Required Supplementary Information says about the City's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	88
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	92
These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.	
Debt Capacity	103
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	123
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	126
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the city provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The city implemented GASB Statement 34 in 2013 schedules presenting government-wide information include information beginning in that year.

Source: Indiana Department of Local Government Finance Budget Order for Johnson County & County Auditor's Abstract.

Notes: The city's basic property tax rate may be increased only by a majority vote of the city's residents. Rates for debt service are set based on each year's requirements.

Data for fiscal year 2006 was not available.

^a Overlapping rates are those of local and county governments that apply to property owners within the City of Greenwood. Not all overlapping rates apply to all Greenwood property owners; for example, although the county property tax rates apply to all city property owners, the Flood Control District rates apply only to the approximately one-third of city property owners whose property is located within that district's geographic boundaries.

Clark-Pleasant Community School Corp	109,034,899	56.29%	61,375,745
Center Grove Community School Corp	103,115,612	26.39%	27,212,210
Subtotal, Overlapping Debt			105,381,880
City Direct Debt			<u>52,022,054</u>
Total Direct and Overlapping Debt			<u><u>\$ 157,403,934</u></u>

Sources: Assessed value data used to estimate applicable percentages provided by the Johnson County Assessor. Debt outstanding data provided by governmental unit or Indiana Department of Education.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Statistical. This process recognizes that, when considering the city's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
